SUMMARY

Mid-Level Frontend Developer (React/Node.js) with over 10 years of experience in IT, working in enterprise and mission-critical environments.

Currently at Capgemini Portugal, combining Frontend Development with L2/L3 Application Support responsibilities, contributing to both the evolution and stability of enterprise applications.

I have hands-on experience building and improving web applications using JavaScript, React, and REST APIs through professional and personal projects, focusing on usability, performance, maintainability, and user experience. My background in application support and troubleshooting enables me to quickly identify root causes and deliver reliable solutions in complex environments.

FEATURED PROJECT

SchedulerPro – Multi-tenant SaaS platform for appointment scheduling and operational management for service-based businesses (salons, clinics, consultancies, and professional offices).

Role: Founder & Full-Stack Developer

- Public appointment booking without authentication
- Customer invitation and self-registration workflow
- Appointment history and customer self-service portal
- Staff, services, clients, and business management
- Role-based access control (Owner, Staff, Client)
- Multi-business architecture with tenant isolation
- Calendar management with Month, Week, and Day views
- Individual time zone configuration per business
- Automated email reminders 24h and 2h before appointments
- Authentication and authorization using JWT and secure cookies
- Cloud-based media management and file uploads

- REST API architecture and state management with Redux Toolkit
- Automated testing using Vitest and Testing Library

Stack: React 19, TypeScript, Redux Toolkit, React Router, Bootstrap 5, Node.js, Express 5, MongoDB (Mongoose), Redis, JWT, Cloudinary, Vitest, Testing Library, REST APIs

PROFESSIONAL EXPERIENCE

CAPGEMINI - www.capgemini.com Portugal, Lisboa
Senior IT Application Support (L2/L3) / Frontend Developer 09/2022-Atual

• Development and maintenance of web interfaces using HTML5, CSS3, JavaScript, jQuery, and Bootstrap
• Implementation of UI/UX improvements, increasing usability and responsiveness
• Bug fixing and delivery of small features in a production environment
• Collaboration with development teams for continuous interface evolution
• Integration with APIs and data validation on the frontend

• L2/L3 application support, incident analysis, and troubleshooting
• Participation in root cause analysis and continuous improvement
• Management of critical incidents and communication with stakeholders

Highlight: hybrid role between frontend and critical systems, bringing a vision focused on stability and user experience

Tools & Technologies:

- BugTracker.NET, Redmine, SQL Developer, mRemoteNG, REST APIs, Git, HTML5, CSS3, JavaScript, jQuery, Bootstrap

PrimeIT- www.primeit.pt Portugal, Lisboa
Senior IT Application Support (L2/L3) 09/2021 – 08/2022

• Provide second- or third-level support to internal and external users.
• Resolved incidents related to application functionality in a timely manner
• Proposed system improvements based on user interactions and problem analysis.
• Managed critical incidents, coordinating real-time responses and communicating status to stakeholders.
• Participated in root cause investigations to prevent recurrence of critical issues.
• Recorded, prioritized, and tracked support requests via ticketing systems using the BugTracker tool.

Tools & Technologies:

- BugTracker.NET, SQL Developer, Oracle SQL, Application Monitoring, Incident Management

LG Lugar de Gente - www.lg.com.br Brazil, Goiânia
Senior Systems Implementation Analyst 04/2013-01/2020

• Execute client installations, including server and application configuration.
• Migrate data from legacy systems to the LG software suite.
• Design and implement system integrations (FPw with legacy systems) via database Triggers, Stored Procedures, and Functions.
• Provide technical consulting and knowledge transfer to clients regarding FPw application-related matters.
• Analyze business needs and generate customized reports using FPW-Reports.
• Deliver comprehensive end-user training (beginner to advanced) on the FPW-Reports platform.

TECHNICAL SKILLS

Frontend:

- React
- JavaScript (ES6+)
- HTML5
- CSS3
- Bootstrap
- jQuery

Backend:

- Node.js
- REST APIs
- JWT Authentication

Tools:

- Git
- Redmine
- BugTracker.NET
- SQL Developer

- mRemoteNG

Methodologies:

- Agile
- Scrum

Support:

- Application Support (L2/L3)
- Incident Management
- Root Cause Analysis
- Troubleshooting

Core Strengths

- Enterprise and high-availability systems
- Production support and incident management
- Root cause analysis and complex problem solving
- Collaboration between business, support, and development teams
- Focus on application stability and user experience

TRAINING

- Bacharel em Sistemas de Informação

CERTIFICATIONS

Frontend Development & Modern JavaScript:

- React
- Advanced JavaScript
- Node.js & MongoDB

Agile:

- Scrum Fundamentals

LANGUAGES

- Portuguese: Native
- English: Working Proficiency (reading and written communication)
